

Poslužitelji, prozori i pingvini

Happy 26th birthday Linux!!!

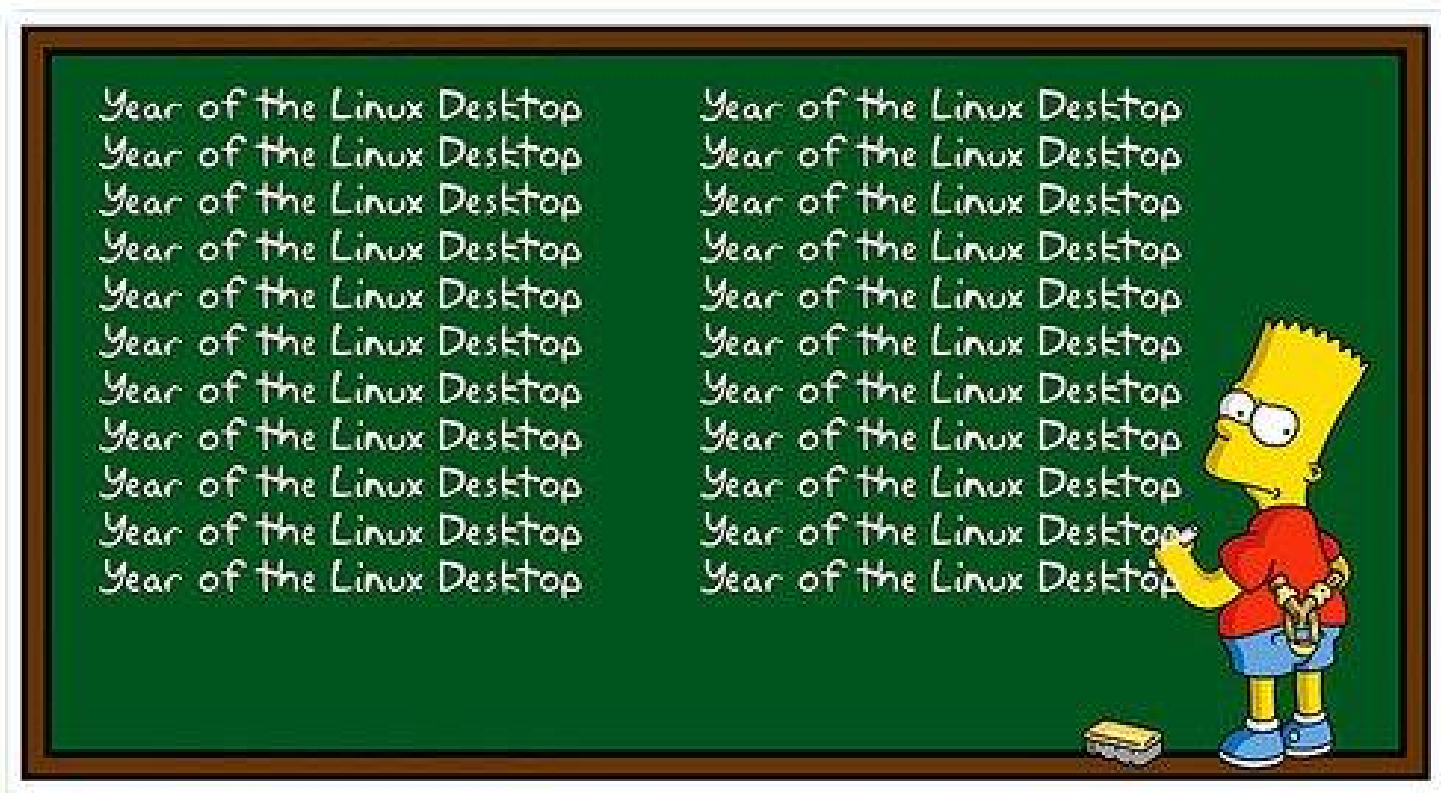

Here's your fucking cake, go ahead and compile it yourself.

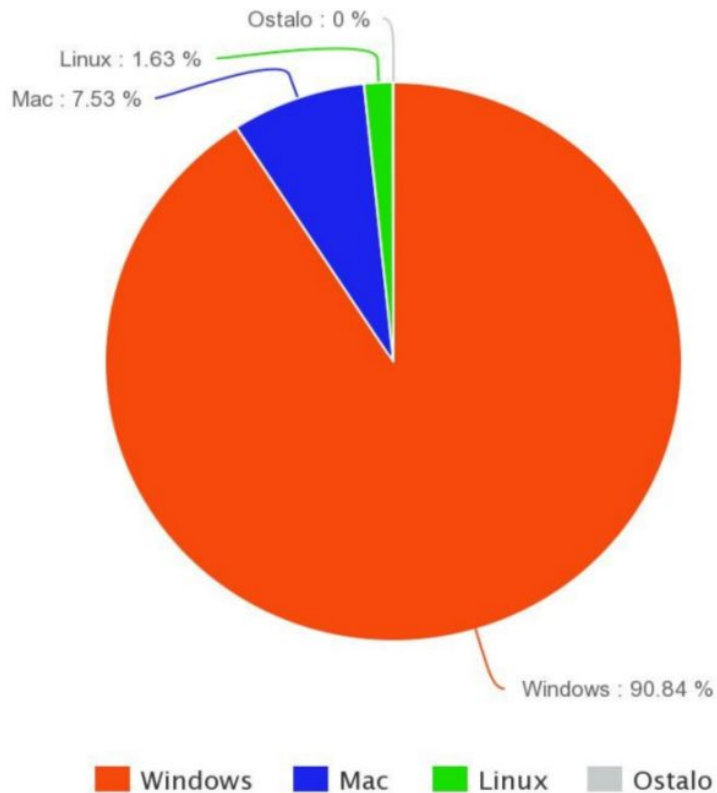

```
cd cake
./configure
--with-features=icing \

--enable-cherries \
  --full-fat
make cake
```

```
mv cake /dev/stomach
```

Linux u Android uređajima

- Baš svaki Android uređaj pogoni Linux jezgra i Linux driveri za periferiju tog uređaja
- Nema tipičnih Linux programa ili grafičkih sučelja pa se ne može reći da mobitele pokreće potpuna Linux distribucija
- Settings -> (more) -> About device
- Terminal Emulator for Android - pristup tipičnim Linux naredbama: ls, cd, obična struktura direktorija (/etc, /dev... cat /dev/urandom) - ne treba rootan mobitel

Worldwide Smartphone OS Market Share (Share in Unit Shipments)

Google
@Google

Thanks to developers and our partners around the world, there are now more than 2 billion monthly active Android devices.

"Our team delivered Apple's biggest quarter ever, thanks to the world's most innovative products and all-time record sales of iPhone, Apple Watch and Apple TV," said Tim Cook, Apple's CEO. "The growth of our Services business accelerated during the quarter to produce record results, and our installed base recently crossed a major milestone of **one billion active devices**."

Of course we'll continue to support the platform.. bug fixes, security updates, etc. But building new features/hw aren't the focus. 😞

Nik Nastev @hg1r

Replying to @joebelfiore

We as individuals use WP also! So, you will not support individuals with WP then? :(
